Reportable Incidents - Types of incidents which must be reported

- All suspensions and expulsions for violations of school substance abuse policies.
- All hazing, harassment and bullying complaints.
- All suspensions and expulsions of students.
- All violent crimes that occurred on school grounds or at a school sponsored function.
- All incidents where the victim of a violent crime that occurred on school grounds exercised their school choice option under NCLBA.

Things to Remember

- We have clarified the definition of Expulsion to state that the student is barred from school grounds for the remainder of the school year or longer. This is necessary to match the US Department of Education definition.
- There is no longer a requirement for the Safe and Healthy Schools Program collection.

Data Collection and Program Descriptions

This data collection is a collaborative effort among the Department of Education, the Department of Health, Office of Alcohol and Drug Abuse Programs, and the Department of Mental Health.

The information will be used to:

1. Assess individual school compliance with NCLBA, Act 120 (Hazing, Harassment and Bullying), IDEA and 16 V.S.A. §165 (a), (8) (Safe Schools School Quality Standard).
2. Prepare for SDFSCA onsite evaluation visits.
3. Most importantly, this data should provide you with valuable information regarding your school climate.

Due Date

The data is due **July 1, 2012. Non-compliance can result in withheld funds.**

Data Collection and Program Description

The **Combined Incident Reporting Software** is designed to assist in the gathering of information related to violations of school policies, state or federal statutes or regulations (what we are referring to as “incident data”. See Reportable Incidents.) The state and federal requirements to gather this data are outlined below.

This software has been revised for use based on legislative changes and your feedback throughout the year. The software is designed to be used on a day-to-day basis. At the end of the school year please download the incident data on a floppy disk or CD and

send it to the department of education at **DMAT, Vermont Department of Education, 120 State Street, Montpelier, VT 05620**. We believe that this application will provide you with an easy to use, yet very effective method of gathering and storing your incident data in the format necessary to meet the department's reporting requirements and your school's data needs.

This software includes several management reports intended to be used by school administrators to track the frequency of incidents, location, time of day.

Questions about the **content** of Combined Incident Reporting Software should be addressed to the appropriate program manager as follows:

All behavior related questions: Andy Snyder (802) 828-1086

IDEA (IEP) related questions: Lucinda Morabito (802) 828-3483

If you are unsure of whom to contact, please call Liz Rand at (802) 828-3150.

Combined Incident Reporting Software

All public schools **are required** to respond to this portion of the data collection. For all other Vermont schools, use of the software is optional.

This software has been designed to delete student names during the exporting of data to the floppy disk.

Hazing, Harassment and Bullying Data

16 V.S.A. §164 (17) requires the commissioner to report annually, on a school-by-school basis, the "number and types of complaints of harassment or hazing made pursuant to section 565 of this title and responses to the complaints." It is important to note that schools should report *all* complaints filed, not just those where there has been a finding of harassment or hazing. Act 117 of 2004 added "bullying" to the list of reportable incidents.

Data Collection Tip:

Since several different individuals may possess data required for this report, we suggest schools consider identifying a team to gather the information rather than appointing an individual. The software can produce a hard copy of each section of the data collection that can be used by team members to gather the necessary information for input by a data clerk.

Suspension and Expulsion Data

The federal SDFSCA requires the department to annually collect the number of students who are suspended or expelled for possession of, or selling alcohol, tobacco or other drugs. The federal Individuals with Disabilities Education Act (IDEA) requires the department to gather suspension and expulsion data for students eligible for special education services.

Data Collection Tip: Enter all bullying incidents, even if the bullying has not been repeated. To re-classify an incident previously entered as a “general” incident, print out the incident report, delete it from general incidents and re-enter it as a bullying incident.

Suspension or Expulsion Data for all Students

The federal Office of Special Education requires the department to collect this statewide data as part of its state monitoring activities. Annually, this data will be reported to the public at the SU level.

Persistently Dangerous Schools Data

Under the provisions of the Unsafe School Choice Option of the No Child Left Behind Act, a student who attends a “persistently dangerous” school, or is the victim of a violent crime on school grounds, has the same choice options as are available to a student attending a “failing” school as determined by the accountability system. This data will be used to determine whether a school meets the definition of being “persistently dangerous”.

Violent Crime and Weapon Data

The federal SDFSCA and the Gun-Free Schools Act require the department to gather data on school-related crimes including possession of or use of a weapon.

Questions regarding the statutory requirements for gathering this data should be addressed to: Andy Snyder, Safe and Drug-Free Schools Director, (802) 828-1086 or andy.snyder@state.vt.us.

User Support Services

Our goal is to continuously improve our service delivery to meet your needs. The department will provide the following resources and support to facilitate the use of this software.

1. A Software Instruction Manual provides a screen-by-screen, step-by-step description of how to install and use the software. The manual can be found on the department’s Web site.
2. Each section of the software identifies key department of education staff who can provide assistance in responding to that section of the report. These individuals are familiar with the specific program data requirements and are available if this manual does not meet your needs.
3. Technical questions regarding the software can be addressed to the Data Management & Analysis Team at (802) 828-3777.
4. Program and data questions regarding the collection, and any feedback on the collection, please contact Andy Snyder by e-mail andy.snyder@state.vt.us or by phone (802) 828-1086.
