

September

To Parents:

As part of Vermont's Professional Development training, there is a need for samples of student work, for teacher training. This work will illustrate different levels of student accomplishment and will help teachers and students across Vermont to improve their understanding of Vermont's standards and grade expectations.

We are asking permission to use copies of your child's work for the purposes stated above. We will ensure your child's privacy by deleting his/her name and other identifying information from any work that we use.

Please sign the statement below indicating your permission to use samples of your child's work, and return it to your child's teacher at your earliest convenience. Your child's teachers thank you and your child for your assistance.

I hereby grant permission to copy pieces from my child's work for use in assessment and instruction training. I understand that my child's name will be deleted from his/her work as a way of ensuring privacy.
