

## Vermont’s Licensure Options for Providers of Supplemental Reading and/or Math Services

Anyone teaching in a Vermont public school must maintain a current Vermont educator license. However, Vermont does not have specific endorsements for those providing supplemental reading and/or math services. The chart below indicates the endorsements that are considered appropriate for these assignments. Any endorsement listed in the Appropriate Endorsements column is valid for either a supplemental reading or a supplemental math assignment for the corresponding grade levels. **Please note that the instructional levels of the endorsement used must encompass the grade(s) taught in order to be appropriate for the assignment.**
