# VT Flexible Pathways: Considerations for Student Participation in a Flexible Pathway

## Student Sample

This is a universal sample showing possible student evidence and responses. Please note, students do not have to have positive evidence in all categories in order to be ready for the Flexible Pathway Experience. It is up to the student, parent, and school counselor to use this tool to examine readiness and document next steps.

**Purpose:** To support a consistent process for students and their advisors to determine how a flexible pathway opportunity fits within a student's short and long-term goals, how they can prepare for those learning experiences and identify the supports they may need to be successful.

**Directions:** Complete this tool for each student seeking to engage in a Flexible Pathway learning experience. If the school deems it appropriate to make this form available to students, a student may complete the form prior to meeting with the appropriate staff that oversees the Flexible Pathway Opportunity to encourage student agency. Refer to the Considerations for Student Participation in a Flexible Pathway Facilitation Guide for explicit instructions and additional supports.

1. The school staff member(s) and the student read through each question in the Consideration column.
2. Collect the appropriate information to inform that the experience is suitable and practical for the student.
3. Add the information to the Evidence column and/or provide a brief explanation to answer the question in the Evidence column.
  - a. If the evidence provided answers the question in the affirmative, answer 'Yes' in the Response column.
  - b. If the evidence provided does not resolve in the affirmative, provide the action steps needed to get to 'Yes' in the Response column.
