- (3) The statewide prekindergarten tuition rate is determined by using the National Institute of Early Education Research (NIEER) cost model for the cost of prekindergarten education adjusted for Vermont by cost of living and for 10 hours per week for 35 weeks annually of prekindergarten education. For the 2015-2016 school year the statewide tuition rate using this process is determined to be \$3000 per child for 10 hours per week for 35 weeks annually of prekindergarten education. This amount shall be adjusted each year thereafter by the New England Economic Project cumulative price index for state and local government purchases of goods and services as of November 15th each year.

 - iii. Shall be designed to support existing partnerships between school districts and private providers of prekindergarten education.
- (d) If a prekindergarten child is unable to access publicly funded prekindergarten within an approved “prekindergarten region,” the parent or guardian may request, and in its discretion the district may pay tuition at the statewide rate, for a prequalified prekindergarten education program located outside the district’s “prekindergarten region.”
