

VSBPE

Date: February 13, 2019

Item: Assistant Director of Adult Education

ITEM: Shall the VSBPE vote to approve the revised (20) Assistant Director of Adult Education endorsement?

AGENCY RECOMMENDED ACTION:

That the Vermont Standards Board for Professional Educators votes to approve the revised (20) Assistant Director of Adult Education endorsement with the added statements; *when adding a second administrative endorsement, the full 300 hour requirement may not be required and the School Leaders Licensure Assessment - Test Code: 6011; is required for all educators seeking any administrator endorsement unless they have completed Master's degree in Educational Leadership.*

BACKGROUND: On December 3, 2018, a larger than average endorsement revision group, consisting of administrators in the field (who hold more than 40 administrative endorsements between them) and representatives from higher education, met to revise the administrator endorsements. A main of topic of the conversation revolved around making the processes of becoming an administrator and hiring an administrator easier while maintaining high quality administrator standards. The conversation resulted in revised administrator endorsements that have two parts. The first details competencies that must be met for any of the administrator endorsements. The second details the competencies unique to the specific type of administrator endorsement. A great deal of the conversation focused on the Professional Standards for Educational Leaders in conjunction with Vermont Core Leadership Standards. There was unanimous agreement that the 300 hour requirement be required for an initial administrator endorsement. There was unanimous approval of the Agency's current practice of accepting a previous 300 hours of field experience for applicants adding an administrator endorsement when appropriate to the endorsement. There was unanimous agreement that the Agency formalize the practice so that when applicants are adding a second administrative endorsement, the full 300 hour requirement may not be required.

RATIONALE: The Vermont Standards Board for Professional Educators has set to revise endorsements on a five year cycle, the administrative endorsements are up for revision. The requirement of the School Leaders Licensure Assessment demonstrates knowledge competency of educational leadership when the required master's degree is in another area other than educational leadership.

Attached: Revised (20) Assistant Director of Adult Education, Administrative Endorsements Summary of Changes

5440-20 Assistant Director for Adult Education

~~(Revised June 2013)~~
