Montpelier, VT 05602

Dear Pat Pallas:

I have reviewed the Howard Center- Baird School Site Review- Amendment Request document. There are a few clarifications that are important for accuracy.

Page 3 section School Enrollment:

First paragraph, second sentence. Clarification: regular school calendar of 175 rather than 179-181 as indicated.

Second paragraph, first sentence. Clarification: approved capacity is capped at 48 students.

Page 4, section Minimum Course of Study & Required Assessments:

Fifth paragraph, first sentence. Clarification: Students in the Intensive Program will have access to master's level behavior specialists supervised by a licensed clinical director.

Page 5, section Staffing Safeguards:

First paragraph, third sentence. Clarification: a master-level behavior specialist, consulting board-certified behavior analyst, and licensed clinical service providers.

Page 11, section 2228.3

Second section, second sentence. Clarification: Master-level behavior specialists supervised by a licensed clinical psychologist and access to consulting with BCBA.
