Reimbursement

Secretary French spoke about reimbursement that is available for TF members who are not employees of the State of Vermont and who are not otherwise compensated or reimbursed for their attendance/participation. Gaidys further explained the process for reimbursement. She explained that expense forms are still under development and will be emailed to TF members when ready with instructions which will include submitting forms unsigned, having these queued up for electronic signature of appropriate parties (through OneSpan) and submittal to the AOE Business Office for processing.

Pippenger joined the meeting and introduced himself – he is the Senior Advisor to the DCF Commissioner and the designee for AHS.

Election of Chair

Secretary French explained the role of the TF Chair (presiding over meetings, facilitating discussions and finalization of the work product, and interfacing with AOE for administrative support) and said he would entertain nominations for this position. Senator Perchlik said that he and Representative Pajala were interested in being co-chairs. Secretary French said any other nominations could be posted in the meeting Chat. There were no other nominations. Secretary French called a hand vote and announced that Senator Perchlik and Representative Pajala would serve as Co-Chairs. He offered to continue

facilitating this meeting or turn it over to the Co-Chairs. Senator Perchlik and Representative Pajala concurred that Secretary French should continue to chair the meeting.

Opportunity for Public to be Heard

Secretary French asked if there were any members of the public to be heard. There were none.

Review Charges of the Task Force (expiration date of April 16, 2021)

Secretary French asked for open discussion on how the work of the TF should be organized.

There was discussion on working regionally and bringing that information back to deliberations, that Vermont Afterschool has a lot of background data (program locations, enrollment numbers, numbers from this fall and unmet demand, Afterschool for All Grant Program data, and data for each state), that Vermont ranks in the top 10 for program quality and parent satisfaction but are low on access for low-income populations and youth. Moorehouse offered to share information as deemed appropriate by the TF Chairs. Secretary French reiterated the administrative support available from AOE and said AOE would also assist with the development of a dedicated webpage. There was further discussion on 21 Century funding, the complexity of the different funding streams, if the data available included non-licensed afterschool care, the broader federal landscape, rural education reform, the importance of a common definition of equity, relationships of programs, linkages to school days, and how afterschool programming is funded and best delivered.

Secretary French asked what is envisioned for the next meeting. There was discussion on adding the VT Prevention Model, the importance of relationships, the definition of afterschool/summer programs, using the Equity Impact Assessment (EIA) tool in attendance to equity, representing the full scope of afterschool and summer programs to allow for different entry points across the state, varied resources across the state, working backwards from the April deadline, identifying laps and overlays, and ensuring discussion areas and that there is appropriate work time for deliverables.

There was a question on the possibility of using potential revenue from the taxation and regulation of cannabis as a funding source and if there were competing interests for this money. Senator Perchlik spoke about some of these funds going to prevention, but not for a few years – he suggested using subcommittee meetings to address some of the work. Secretary French explained that AOE's administrative support for subcommittee meetings would be limited to warning and posting meetings but that subcommittees would need to take their own meeting minutes. There was further discussion on data subgroups, framing the work at the meta-analysis level, EIA being a useful tool, cross-benefits of afterschool, specific areas of interest, impact of the pandemic, considering the recovery phase of the state of emergency, universal access, flexibility based on regional diversity and different needs,

Secretary French said AOE would work with the Co-Chairs to schedule the next meeting and start organizing the webpage. He thanked the TF members for their efforts.

Adjourn

Secretary French adjourned the meeting at 4:52 p.m.
