

Instructions to Special Education Forms

Form 6 - Consent for Initial Provision of Special Education

This form is used to obtain written consent from parents for the initial provision of special education services. It also informs the parents that **special education services will not begin without their written consent**. The third checkbox on this page is for parents of a student who is transitioning from Part C (birth to age 3) to Part B (ages 3-21) services. The fourth checkbox reflects parents who are not providing consent for initial services to begin but may be seeking other services through a services plan because they have decided to either home school their child or place their child unilaterally in an independent school. It concludes with a contact number or address where the parent can ask questions, and **the date the written consent was received in the district**, assuring that services were not provided prior to receipt of the written consent.
