

Catalog Worksheet for USDA Foods

School Year 2019 - 2020

This worksheet shows the products available, the date(s) each product will be delivered to the warehouse, and the estimated per case entitlement cost of each product. Remember to order 105% of your entitlement to accommodate for cancellations and price fluctuations. Once you have completed the worksheet, log into WBSCM to place your order.

Total Entitlement Cost of Order:																
Trade Mitigation items do not count against entitlement, however they do have a USDA Foods value. This value will be included on the Value of USDA Foods Received Report and food service management companies must credit the value of these items to the School Food Authority. You may order as many cases of the Trade Mitigation items as your school(s) can reasonably use, however orders will be cut back if they exceed the statewide allocation. To find the Trade Mitigation items in the catalog, you will need to click on "TM_NS" when entering the catalog, instead of "NSLP."
