

Post-Secondary Dual Enrollment Participation Agreement FY24

The Vermont Agency of Education and Vermont's higher education partners continue their collaborative effort to create a system in which students may enroll in college courses offered on a college campus, at their high school, and/or online. This program serves to introduce students to college-level coursework before they immerse themselves fully in college life; allows college coursework to be applied for progress toward secondary school completion; and can provide high school graduates with a start on college credits.
