Project-Based Teaching: A Professional Learning Community

Purpose

Project-Based Teaching (PBT) is a professional learning program developed by the Agency of Education (AOE). The focus of this program is to support school-based teams of teachers and school leaders with self-directed PLCs on Project-Based Learning. This document outlines the PBT program and includes registration information.

Project-Based Teaching Overview

Project-Based Learning (PjBL) can support self-efficacy, student-directed learning, intrinsic motivation, and engagement, all of which have shown to be effective in beginning to close the opportunity gap (Boaler, 2002; Deutscher et al., 2021). Studies also continue to suggest that PjBL can support academic achievement and social emotional learning throughout students’ K-12 experience (Krajcik et al., 2021; Saveedra et al., 2021). PBT provides opportunities for teachers to engage in job-embedded professional learning with a teacher leader and their PLC as they develop PjBL plans and apply them to practice.

PBT participants include teams of teachers with a Teacher Leader or leaders. The Teacher Leader(s) can be a fellow teacher or coach who has attended Foundations of PjBL Cohorts A or B (or something similar). Teams can include any educators who are interested in applying PjBL to practice. As this professional learning includes a job-embedded PLC led by the teacher leader(s), teams should teach at the same school or, if teaching across an SU/SD, have a clear and manageable plan to make regular PLC sessions accessible (e.g., standing meeting times, virtual sessions, etc.). PBT happens in three phases:

- **Phase I: PjBL Teacher Leader Seminar**
  The first phase of PBT is the Teacher Leader Seminar. This includes three ninety-minute sessions on supporting a shared understanding of and vision for PjBL among teams, maintaining a positive professional learning culture for PjBL PLCs, and developing clear and manageable goals for your PLC.

- **Phase II: Foundations of Project-Based Learning**
  The second phase targets teams’ professional learning on fundamentals of PjBL through the AOE’s Foundations of Project-Based Learning professional learning series. Teams and their Teacher Leader(s) will attend this five-session series to begin developing units and preparing to apply PjBL to practice.

- **Phase III: Project-Based Learning PLCs**
  The third phase is a self-directed PLC. Teams and their Teacher Leaders will finalize their unit and goals, deliver the PjBL unit to their students, and engage in regular PLC

sessions to reflect on their process and refine their unit plan(s). This phase also includes check-ins with AOE PBT facilitators and culminates in a final debrief with PBT facilitators.

**Registration**

If interested in participating in PBT, educators should assemble a team of colleagues and identify a Teacher Leader to attend the Teacher Leader Seminar. Teacher Leaders should also attend the Foundations of Project-Based Learning PL series with their teams. Meeting dates and times for the Teacher Leader Seminar are as follows:

- January 10th, 2022 at 4:00-5:30pm
- January 24th, 2022 at 4:00-5:30pm
- January 31st, 2022 at 4:00-5:30pm

Please complete this form to register.
