
Student ID Number Requests

- Schools wishing to have access to student IDs must submit student information by fax (802) 828-1017.
 - It is preferable that the Student ID Number Request form is used but as long as the student's name, date of birth, gender, grade, and town of residence are supplied we will accept the request.
 - Make sure that there is also a contact person, phone number and fax number in case there are any questions on the students that are being requested and the information can be returned to the appropriate person.
 - Should ID exist; it will be returned to the school by fax. All other IDs will be assigned during the fall and spring data collection cycles and returned to superintendent's office once all the data are submitted and all IDs are assigned.
